System: Zoom or Google Meet (free tiers) for virtual calls, Calendly for scheduling.

Script for Opening (5–7 minutes):

Hi [Client Name], thank you for taking the time to meet with me today. I'm [Your Name] from JECI Group, and I'm excited to learn more about your business and how we can help you achieve your digital marketing goals. I've reviewed the information you shared in the pre-consultation form, and today's goal is to dive deeper into your needs, discuss potential strategies, and outline how we can work together to drive results.

Here's how we'll structure the call:

1. I'll ask a few questions to better understand your business and challenges.

2. We'll discuss your goals and how our services—SEO, Content Marketing, Social Media, or bundled packages—can support them.
3. I'll provide some initial insights based on my research and answer any questions you have.
4. We'll wrap up with next steps and how we can move forward.

Does that sound good? Also, is there anything specific you'd like to cover today?

Key Points:

- Keep the tone warm, professional, and client-focused.
 - Confirm the call duration (60–90 minutes) and ask for their preferred focus areas.
 - Take brief notes in a CRM (e.g., HubSpot Free) or Google Doc during the call.
-

Step 4: Discovery Questions & Discussion

Objective: Uncover the client's needs, pain points, and goals to tailor service recommendations.

Questions to Ask (20–30 minutes):

- **Business Context:**
 - Can you walk me through your business—what products or services do you offer, and who's your ideal customer?
 - What's been working well in your business so far, and what's the biggest challenge holding you back?
- **Digital Marketing Status:**
 - What digital marketing efforts have you tried (e.g., SEO, social media, content)? What's worked or not worked?
 - Do you have a website? If so, what's your main goal for it (e.g., lead generation, sales, brand awareness)?
 - Which social media platforms are you active on, and how do you currently use them?
- **Goals & Expectations:**
 - What are your top 1–2 goals for digital marketing in the next 3–6 months? (e.g., more website traffic, better leads, stronger brand)
 - Are there specific metrics you're tracking, like website visits, conversion rates, or social media engagement?
- **Budget & Resources:**
 - What's your approximate budget for digital marketing? Are you looking for ongoing support or a one-time project?
 - Do you or your team have time to implement strategies, or are you looking for us to guide the execution?
- **Competitors & Market:**

- Who are your main competitors online? What do you like or dislike about their digital presence?
- Are there specific audiences or markets you want to target (e.g., local, national, specific demographics)?

Key Points:

 - Mention competitor strengths/gaps (e.g., “Your competitor has a strong Instagram presence, but their content lacks a clear call-to-action”).
